

-Dr. Walter Lamm

Dr. Lamm does not live a U.S.  
patent on Carbowax, at least none  
that has been assigned to them, unless  
it issued before 1952. We have no  
facilities for searching prior to that time.

It could be a patent unassigned,  
or it could be one that issued in a  
foreign country. I am asking Mr. Keefe  
to see what he can find out about  
a foreign issue.
